## PO-408 STUDY RESULTS

12/4/23

Trenton, NJ

Destination operations will continue to be processed at the Trenton P&DC

No changes are expected to Retail or Delivery Operations

Originating operations will be processed at the Philadelphia P&DC

The Postal Service anticipates that there will be some impacts to staffing because of Originating operations moving to the Philadelphia P&DC. We anticipate this to impact the following career positions at the Trenton P&DC:

- 6 Mail Processing Clerk
- 36 Mail Handler
- 14 Maintenance
- 7 Management

The plant manager will be addressing employees in groups to discuss this new information with the Union present as soon as it is possible. The timetable for the impact has not been announced but is *anticipated* to be in early summer.

The Union will be working hard to reduce the impact number as this event unfolds to minimize the impact to the craft. I will update everyone as I get any new information.
